

# LITTLE BIRDHOUSE PURSE

www.quiltmydesign.dk \* Quilt My Design v/Linette Jakobsen

- Cut out fabric with seam allowance for **the outer side**

Bast them over cardboard  
Sew them together

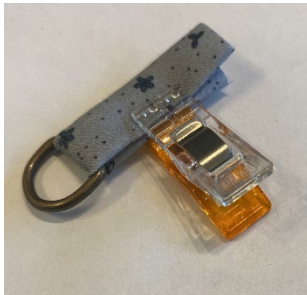

Cut out fabric and batting with seam allowance for **the inner side**  
Bast them over cardboard

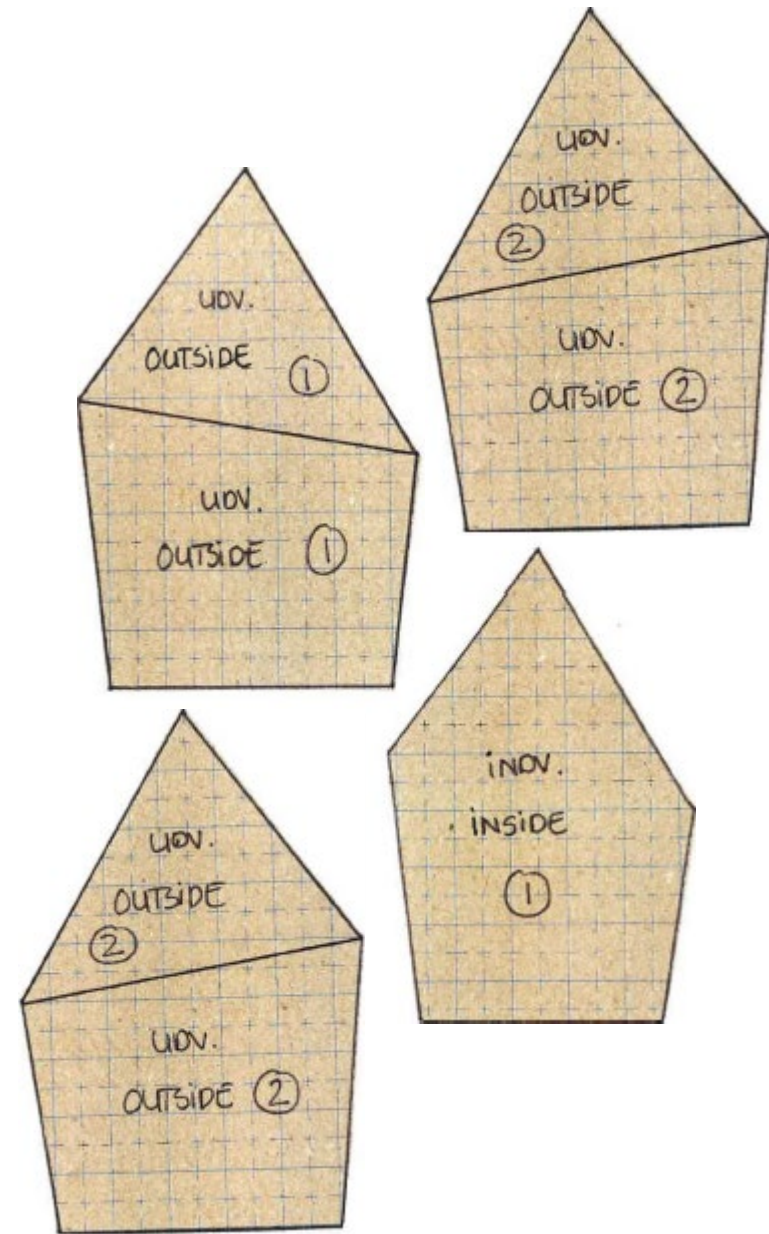

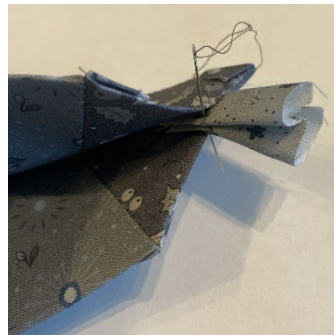

- Cut a strip fabric of 2.5 x 5 cm +  
batting 1 x 5 cm  
Glue fabric around the batting

- Insert the D-ring into the  
center of the strip and  
fold it

- Place strip with D-ring on one roof pitch

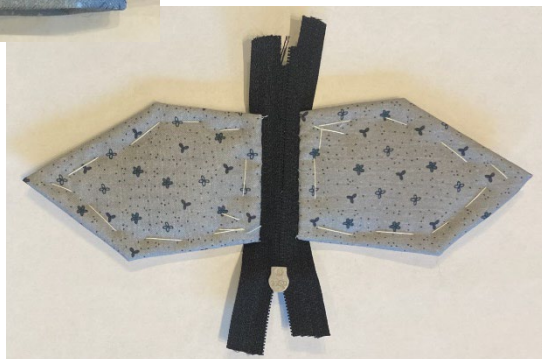

- Sew the two outer sides together with the D-ring in between

- Remove the cardboard and turn the right side out

- Put the slider on the zipper  
Sew the two inner sides to the zipper  
The pages are located approx. in the middle of the fabric on the zipper  
NOTE THE ZIPPER FACES DOWN...  
The sides are sewn onto the wrong side of the zipper ...

- Sew over the zipper approx. 0.5 cm out and cut away the zipper that is too much

- Remove the cardboard

- Insert the inner part into the outer part  
Make sure they face the same (the sides are not the same height...)

Fold in the seam allowance on the outer part

Appliqué the bottom down to the zipper just above the stitching which the inner part is sewn

- Gather some yarn and sew a button on top
- Now the little purse is finished  
Have fun with the little birdhouse purse
